A Value-Driven Education

Mesrobian Technical College (MTC) was founded in 1982 and since that time, many generations of skilled students graduated from it and went into the world of labor to ensure a decent life for themselves and their families, realizing their dreams and ambitions and participating in the development of their community and country.

Today, Mesrobian Technical College offers high quality education as well as an up-to-date training in all its official specializations (Accounting and Computer, Kindergarten, Hospitality Management and Graphic Design) especially with the launching of its renovated and upgraded Hospitality Lounge, offering a luxurious environment for real-life practice. The implementation of our well-adapted curriculum ensures 100% success at the official exams (CAP, BP, BT, TS and LT).

Certifications granted by MTC to private specializations students are accredited by the Ministry of Education.

What about **YOU**?

Haven't you discovered your vocation yet?

Well, it's time to pay us a visit and **make your choice** according to your preferences!!!
